Bolle LT P

Oberfläche

- doorzichtig
- wit

Technical details

Land van herkomst	 Italië
Fabrikant	Vistosi
Ontwerper	Barbara Maggiolo
jaar	2003
Beschermingsklasse / IP-bescherming	IP20
Leveringsomvang	Leuchtmiddel/Bulb
materiaal	kristalglas, metaal
Voet / fitting	G9
schakelbaarheid	aan de lijn
Vermogen (max. Watt)	60 Watt
Schaduw diameter	16 cm
Dimensions	H 19 cm

Omschrijving

The Vistosi Bolle LT P is a table lamp with a lamp shade made of mouth-blown crystal glass. The glass is processed using the Balaton technique, in which air bubbles are enclosed into the glass. This creates a special texture which multiplies the reflections on the surface of the glass. In addition, a halo effect appears on the table on which the lamp stands. The lamp shade is available in crystal transparent and white surfaces. The lamp base is made of satin nickel-plated metal. Altogether the Bolle LT P is 19 cm high and has a lamp shade with a diameter of 16 cm. An on/off switch is integrated on the supply line. The table lamp can be operated with halogen lamps or LED retrofits.
