Diepte in cm	9
materiaal	aluminium, polycarbonaat
dimmen	dimbaar op locatie
Wattage	20 W
LED	inclusief
Kleurweergave-index	>90
bulb vervangen:	ter plaatse zelf
Dimensions	H 3 cm B 60 cm

Omschrijving

The Serien Lighting SML2 Wall 600 White has an aluminum housing. It is available with different lamp covers: with the satinée / satinée lamp cover, the light can be scattered upwards and downwards. With the satinée / raster cover, the light is scattered in one direction and dimmed in the other.

The SML2 Wall 600 White is available with a colour temperature of 2,700 Kelvin extra warm white, with 3,000 Kelvin warm white or with Tunable White technology. In the case of the lamp with **Tunable White technology**, it is possible to control the light via Bluetooth from incandescent warm to cool white (with colour temperature control from 2,700 Kelvin extra warm white to 5,000 Kelvin cool white). A locally replaceable LED is integrated as the light source.
