## Omschrijving

The Serien Lighting SML2 Wall 900 White is an LED wall lamp with a housing made of white aluminum. It is offered with two lamp covers: With the satinée / satinée lamp cover, the light can be scattered upwards and downwards. With the satinée / raster cover, the light is scattered in one direction and dimmed in the other. The SML2 Wall 900 White is available with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with **Tunable White technology**. Thanks to Tunable White technology, the light can be changed via Bluetooth from incandescent warm to cool white. In this way, the colour temperature of the light can be adjusted from 2,700 Kelvin extra warm white to 5,000 Kelvin cool white. The integrated LED can be replaced on site if necessary.
