jaar	2019
Beschermingsklasse / IP-bescherming	IP20
Leveringsomvang	LED
Diameter in cm	60
materiaal	metaal
Hoogte-instelling	hoogte verstelbaar
dimmen	gebarencontrole
Wattage	50 W
LED	inclusief
Kleurweergave-index	>90
Lichtstroom in lm	5.559
Kleurtemperatuur in Kelvin	2.700 extra warm wit
luifel Dimensions	30 cm
bulb vervangen:	bij de fabrikant / fabriek
totale hoogte	70 - 170 cm
Dimensions	H 3,4 cm Ø 60 cm

Omschrijving

The Knapstein SVEA-L60 is a pendant lamp with a diameter of 60 cm. It emits its light simultaneously upwards and downwards. Its uplight and downlight can be switched and dimmed separately. The sensor area for gesture control is located on the top and bottom of the lamp. The light can be switched on or off with a wiping hand movement in the sensor area. The lamp is dimmed continuously by holding the hand in the sensor area for a longer period of time. A memory function saves the luminous intensity last set and automatically selects it the next time it is switched on.

The SVEA-L60 by Knapstein is available with a matt nickel, black, bronze effect or gold-coloured matt lacquer finish. The total height of the lamp can be adjusted between 70 cm and 170 cm by lifting or pulling the lamp. This pendant light is also suitable for sloping ceilings. There are no visible screws on the ceiling canopy, as the canopy is held in place by magnets. Besides this pendant lamp, the height-adjustable Svea-L40 with a diameter of 40 cm is also offered. From the SVEA lighting series, pendant lamps with height determination by means of stop sleeves on the ceiling canopy are also available. These lamps are offered with a diameter of 40 cm, 60 cm or 80 cm. The SVEA is also available in other lengths or finishes on request.
