Omschrijving

The Foscarini Caboche Plus Soffitto is a ceiling lamp with a diameter of 50 cm and a height of 20 cm. Its lamp shade consists of clear polymethyl methacrylate spheres that multiply the light of the central light source thanks to their ring-shaped arrangement. The light is distributed from the lamp glare-free to the side and downwards. The zigzag shape of the brackets diffuses the light to the maximum without shielding it. The Caboche ceiling lamp is available in the colours transparent or grey. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as illuminant. The LED offers a very high level of colour rendering and energy efficiency. The Caboche Plus Soffitto is offered as a not-dimmable or DALI dimmable version.
