Omschrijving

The SLV Enola Round Up/Down L WL is a cylindrical outdoor wall lamp made of aluminium. This anthracite-coloured outdoor lamp is 14 cm wide, 19 cm deep and 33.2 cm high. In the rectangular wall bracket there is a switch (CCT Switch) with which the colour temperature of the lamp can be changed from 3000 Kelvin warm white to 4000 Kelvin white during installation if required. LEDs integrated under two glass lenses ensure glare-free light emission. Through the glass lenses, light is emitted upwards and downwards, as well as contoured at the top and bottom of the wall, creating lighting effects on the wall in both directions. Uplight and downlight of the lamp have a luminous flux of 2700/3000 lumens. With IP65 protection, the Enola Round Up/Down L WL by SLV is ideal as an outdoor light, as it is dustproof and protected against water jets from any angle. A spacer set for mounting the lamp with surfacemounted wiring is available as an accessory.
