## Omschrijving

The Less'n'more Eichendorff Zeus Bedside Table EI-Z is a wooden bedside table with an integrated Zeus lamp. The bedside table has a height of 12 cm and a width of 34 cm. Its depth is 22 cm. It has a matt white coating and comes with an extendable bookmark made of satin-finished stainless steel. The integrated Zeus lamp can be mounted on the left or right side of the Eichendorff bedside table. Its flexible lamp arm can be bent and stretched as desired so that it can be realigned again and again. When the arm is stretched to its maximum, the lamp and bedside table together are 61 cm high. The flexible lamp arm is available in these colours: aluminum, textile black, white, anthracite, blue, green, red and brown. The lamp arm is offered in other colours on request.

The lamp head and rod of the Zeus recessed lamp are available in the surfaces aluminum and black. A push button dimmer is integrated in the lamp rod. The beam angle of the light can be adjusted continuously between 15 and 75 degrees. To do this, the glass lens is turned out of or into the lamp head. The beam angle determines the angle at which the light emerges from an LED spotlight. The larger the beam angle, the larger the illuminated area, but it is also less bright because more area is illuminated.

The Eichendorff Zeus Bedside Table El-Z has a black supply cable with a length of 200 cm. In addition to the conventional power supply, the Zeus lamp can also be operated via a USB connection. Less'n'more also offers the Eichendorff bedside cabinet with an integrated Athene lamp.
