

Lichtlauf

MunichReeds

Technical details

Land van fabricage	 Duitsland
fabrikant	Lichtlauf
ontwerper	Christoph Matthias
jaar	2015
bescherming	IP67
Omvang van de levering	LED
materiaal	acryl, aluminium, glasvezel
kabel kleur	zwart
kabellengte	100 cm
Wattage	8 W
LED	inclusief
Kleurtemperatuur in Kelvin	3.000 warm wit
kandelaar Dimensions	lengte 14, breedte 14 cm
Dimensions	H 140 cm

Omschrijving

The MunichReeds outdoor floor lamp by the German manufacturer Lichtlauf fulfils the desire for atmospheric reference points in the nighttime space. Hardly visible during the day, this luminaire creates a new perception of space in the dark. The 12 glass fibre stalks are flexible and stable, move in the wind and thus integrate very well into the surrounding vegetation. Suitable for flower beds, gravel areas or shallow water zones in semi-public and private areas. 12 light-conducting, handmade stalks create the impression of luminous grass. Due to the special manufacturing process, each blade of a luminaire is unique and allows the composition into unique clusters. The Lichtlauf MunichReeds finds its place in gravel or grass as well as in shallow waters. The outdoor floor lamp is 140 cm high and has a 100 cm long black connection cable. The black aluminium base is 14 cm long and 14 cm wide. This luminaire emits its white light all around and is protected against submersion with protection class IP67. The supplied floor junction box is dustproof with IP68 protection and protected against permanent submersion. The MunichReeds can stand in water up to a maximum depth of 20 cm. On request, this LED luminaire is also available in the light colour amber. Extra-long connection cables are also possible on request.
