Omschrijving

The Betec Angulus is a picture light with an angular shape that is particularly harmonious with many picture frames. As its lamp head can be rotated around its own axis, it can be realigned at any time as needed to illuminate or highlight a picture. This makes this lamp particularly suitable for illuminating pictures, menus and music stands. The integrated LED is a Duo LED. A Duo LED consists of two LEDs in one housing and therefore has a particularly high light output. A diffuser cover reduces the glare of the emitted light. The lamp offered here is 50 cm long and has a projection of 15 cm (bracket type 15).

The Betec Angulus 50 cm is offered in the surfaces brass glossy, brass matt, chrome, nickel glossy, nickel matt, burnished, black matt, gold glossy and gold matt. A mounting set is included, which makes it easy to attach the light directly to a picture or to the wall. As standard, the picture light has a colour temperature of 2,700 Kelvin extra warm white. On request, it is also available with 2,400 Kelvin extra warm white, 3,000 Kelvin warm white or 3,100 Kelvin white. The integrated LED is characterised by very good colour rendering with a high colour rendering index of Ra >90. A touch dimmer is offered as an accessory, with which the lamp can be switched and dimmed by touch. Betec offers the Angulus picture light in three other lengths and with a projection of 20 cm or 25 cm.
