

Domus

Floyd 75

Technical details

Land van fabricage	 Duitsland
fabrikant	Domus
jaar	2016
bescherming	IP20
Omvang van de levering	Leuchtmittel/ Bulb
materiaal	Lunopal
kabel kleur	grijs
kabellengte	200 cm
hoogteverstelling	hoogte bepaalbaar
dimmen	dimbaar op locatie
base/versie	E27
lampenkap kleur	wit
prestaties van het systeem	2 x 75 Watt (max.)
Dimensions	H 36 cm B 36 cm L 75 cm

Omschrijving

The Floyd 75 pendant lamp, based on the shape of an oloid, amazes with the incomprehensibility of its geometric form. The oloid is a geometric body that was discovered in 1929 by the sculptor and mechanical engineer Paul Schatz. It has properties that clearly distinguish it from other bodies. You walk around the Floyd pendant lamp in amazement, discovering a different lamp every time. The geometry hidden behind it can at best be guessed at. The white diffuser made of Lunopal is 75 cm long, 36 cm wide, 36 cm high and provides a pleasant room light. Lunopal is a high-quality shade material developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The environmentally friendly material is UV-resistant, washable and does not yellow. The 200 cm long silver-grey cable, which serves as a supply line, can be shortened if necessary. The Domus Floyd 75 has two E27 sockets and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
