Technical details

Land van fabricage	 Duitsland
fabrikant	Betec
ontwerper	Horst Lettenmayer
bescherming	IP20
Omvang van de levering	LED
Projectie in cm	15
materiaal	messing
Wattage	38,4 W
LED	inclusief
Kleurweergave-index	>90
Lichtstroom in lm	3.794,6
Kleurtemperatuur in Kelvin	2.700 extra warm wit
Dimensions	H 25 cm L 119 cm

Omschrijving

The Betec Minimus is a further development of the Clarus picture light. In contrast to the Clarus, its lamp head is thicker with a diameter of 1.8 cm. The Minimus was designed for the use of a Duo LED. A Duo LED consists of two LEDs in one housing and therefore has a particularly high light output. As a result, this picture light can also fulfil the side effect of brightening up a room. Its emitted light is mainly directed at the respective object, but it is reflected into the room at the same time, so that a pleasant atmosphere is created with the basic brightness.

The Minimus has a lamp head that can be rotated around its own axis. This makes the lamp ideal for illuminating pictures, menus and music stands. Here, the lamp is offered with a length of 119.1 cm and a projection of 15 cm (bracket type 15). It is available in the surfaces brass glossy, brass matt, chrome, nickel glossy, nickel matt, burnished, black matt, gold glossy and gold matt. With the supplied mounting set, the lamp can easily be fixed directly to a picture or to the wall. The picture light has a colour temperature of 2,700 Kelvin extra warm white as standard. On request, it is also available with 2,400 Kelvin extra warm white, 3,000 Kelvin warm white or 3,100 Kelvin white. The integrated LED is characterised by very good colour rendering with a high colour rendering index of Ra >90. A touch dimmer is offered as an accessory, with which the lamp can be switched and dimmed by touch. It is additionally offered in two other lengths and with a projection of 20 cm.
