Omschrijving

The Foscarini Bridge 1 table lamp emits its light downwards and is intended to be reminiscent of the shape of a bridge. The lamp is made from a single, laser-cut piece of metal that is then folded into its shape. The table lamp is available in the surfaces dark red and brass. The lamp in brass is polished during production so that the brass does not oxidise and discolour over time.

The Bridge 1 has a height of 26 cm and a length of 49 cm. The width is 11 cm. As illuminant, a power-efficient LED with a colour temperature of 2,700 Kelvin extra warm white is included. In the middle of the lamp there is a sensor that can be used to switch the lamp on and off by hand movement. The Bridge 2 with a length of 29 cm is also available from the series.
