Opis

The Vibia Set 7749 is a single-lamp LED wall light of borosilicate glass. It was designed by Xuclà and it is available by Vibia in the surfaces white-matt and matt mink. It consists of only a single, narrow and straight light body. As a single lamp the 7749 Set is due to its small size and its simple design virtually inserting everywhere. The wall lamp is on site dimmable with 0-10 Volt, on request there is also offered a version which is dimmable via Smartphone. It is suitable in combination with other Set lights. Some Set configuration examples you can discover in the images of this product.
