SML Wall silver Large satinee-satinee

Technical details

Kraj produkcji	 Niemcy
Producent	Serien Lighting
Projektant	Jean Marc da Costa
Stopień ochrony / Stopień ochrony IP	IP20
Zawartość opakowania	Leuchtmittel/ bulbs
Głębokość w cm	9
tworzywo	aluminium, szkło
ściemnianie	na miejscu z funkcją ściemniania
Cokół / Oprawka	R7s
Moc (maks. W)	160 Watt
Wersja	Large
światło okładkę	satyna / satyna
Dimensions	H 3 cm L 17 cm

Opis

The Serien Lighting SML Wall wall lamp has a silver alu surface which is anodized. The lamp has a consistent design which has pared its dimensions down to 25 mm in height. The two different illuminant covers, which can be freely chosen for top or bottom, allow the light to be directed individually. One cover emits the light symmetrically scattering upward and downwards (satinee/satinee) and the other cover emitted the light in one direction and shielded it to the other side (satinee/raster). The satinized cover lets the light pass but the black raster cover blocks it almost completely.

This SML wall lamp is the halogen version of the series. Apart from this, also an LED lamp is available. The light is offered in three sizes: Small with 85 mm, Medium with 130 mm and Large with 170 mm. Wall reflectors and mirror adapters are also available as accessories. The lamp exploits its strengths anywhere an opening in the wall is possible but there is no desire or space for expressive lighting fixtures. Be it along a long corridor, by or on a mirror or in the kitchen.
