Opis

The Vibia Algorithm 0825 pendant lamp consists of a total of ten lamps arranged in the form of a triangle. The suspension of the ten pendant lights has a length of 84 cm and a width of 75 cm. Each pendulum on this lamp has a length of 120 cm lower edge glass / suspension. On each pendulum hangs a mouth-blown glass. The glass has a diameter of 9 cm. The aluminum glass fixing is available in a graphite grey surface .

The canopy is mounted on the ceiling. Below this hangs the suspension. The distance between ceiling and suspension can be freely chosen between 16 - 200 cm. The cable length is set at 120 cm and cannot be shortened. If required, please let us know the desired cable length. A built-in canopy is also available on request. The designer Toan Nguyen was inspired for the lamps of this series by geometric patterns from nature. 10 LEDs with an output of 3.15 watts each and a colour temperature of 2,700 Kelvin extra warm white are included. On request, the light is also available with 3,500 Kelvin white. The LEDs can be dimmed on site with 1-10 volts, DALI or push. A version that can be dimmed via a smartphone with Casambi module is also available on request. With a Casambi module, it is possible to operate the lamp via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the light on at specific times via a timer.
