Opis

The Anglepoise Type 75 Floor Lamp has a flexibly movable articulated arm. This articulated arm can be repositioned again and again using tension spring technology. In addition, the lamp shade can be rotated and tilted. The shade has a diameter of 14.5 cm and a height of 19.2 cm. Like the articulated arm, it is also made of aluminum. The base is made of cast iron with an aluminum cover and has a diameter of 25 cm. The floor lamp is offered in the surfaces jet black, slate grey, silver lustre and alpine white. An on/off switch is integrated on the lamp shade. LED retrofit or compact fluorescent lamps can be used as light sources.
