Opis

The Vibia Tempo 5776 pendant lamp has a classic bulb shape under a disc-shaped reflector. The reflector has a diameter of 40 cm and is available in terracotta-red, graphite-grey, cream-white and green surfaces. All versions are matt lacquered. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as the light source. On request, the pendant lamp is also available with a colour temperature of 3,000 Kelvin warm white or 4,000 Kelvin white. The cable can be shortened if necessary. Special cable lengths are also available on request. DALI dimmable versions are also available on request, or versions that can also be dimmed using a smartphone app with an optionally available Casambi module. With a Casambi module, it is possible to operate the lamp via smartphone or tablet using the Casambi app via Bluetooth. The Casambi technology also offers the option of switching the light on at specific times via a timer.
