

Vibia

Palma 3700

Oberfläche

- szary grafit
- biały

Technical details

Kraj produkcji	 Hiszpania
Producent	Vibia
Projektant	Antoni Arola
rok	2018
Stopień ochrony / Stopień ochrony IP	IP20
Zawartość opakowania	LED
Głębokość w cm	25
tworzywo	aluminium, szkło
ściemnianie	1-10V ściemniania
LED	Łącznie
Wskaźnik oddawania barw	>90
Temperatura barwowa w stopniach Kelvina	2.700 extra biała ciepła
wydajność systemu	2 x 4,6 Watt
Całkowity strumień świetlny w lm	868
Dimensions	H 19 cm L 55 cm

Opis

Vibia presents with the Palma 3700 an individual vertical wall lamp. Its timeless sphere of light evolves towards the organic. Slightly flattened like the shape of the Earth, it emits a warm and adjustable light. The lamp is offered in a matt lacquered graphite-grey surface. The standard colour temperature is 2.700 Kelvin extra warm white. On request, the wall lamp is also available with a colour temperature of 3,000 Kelvin warm white or 4,000 Kelvin white.

It's part of a lighting family that introduces the planting normally associated daylight in the outdoors, to an indoors setting. The Palma collection also makes possible multiple globe compositions, vertical and horizontal in order to create visual axes on a larger scale, integrating vegetation. It can also be used as an individual globe. With this approach numerous options are made possible. One of the most innovative is the use of multiple wall sconce lamps for public spaces.
