Opis

The Vibia Musa 7402 - 7404 is a table lamp with a disc shape lying on the lamp base. This lamp has a diameter of 26 cm and reflects the light emitted by the integrated LED glare-free into the room. The lamp has a spherical diffuser made of hand-blown glass. The lamp itself is made of aluminum. The table lamp is available in white, pink and beige finishes. All surfaces are matt lacquered. The lamp is also available in two versions: with plug lead (Musa 7402) and as a portable version (7404). The portable version is battery powered and is charged via a plug lead. Depending on the brightness level set, the battery life is approx. 6 to 18 hours.

An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as standard. On request, the table lamp is also available with a colour temperature of 3,000 Kelvin warm white or 4,000 Kelvin white. A push dimmer is integrated at the base of both versions. The version 7402 with plug lead is switched on and off by quickly pressing the push-button dimmer and infinitely dimmed by pressing for a longer time. With the akku version 7404, the push dimmer can either be pressed longer for stepless dimming or pressed several times to set different, fixed brightness levels.
