## **Opis**

The Arturo Alvarez Kite KT06G-LD is the bigger of two LED wall and ceiling lights in this collection and is intended to remind you of the glider of a kite hang-glider. This LED lamp is 134 cm long, 120 cm wide and 9 cm high. The asymmetrical shade of the Kite KT06G-LD is made of painted stainless steel mesh. This steel metal mesh is a translucent and flexible material, which is folded and coated with silicone to give it the desired shape and structure. This Kite KT06G-LD shade by Arturo Alvarez is available in white and grey. This lamp can be dimmed on site with a trailing edge phase dimmer and has a colour temperature of 2,700 Kelvin extra warm white. The wall and ceiling lamp is also available as a DALI dimmable version on request. A version with a colour temperature of 3,000 Kelvin warm white is also offered on request.
