Opis

The Holtkötter Epsilon RR 123cm pendant lamp has a length of 123 cm. Its total height can be adjusted by pushing the lamp upwards or downwards up to a maximum of 150 cm. The light is emitted glare-free and directly downwards. The lamp can be continuously dimmed via gesture control by holding one hand under the lamp. The sensor area for gesture control is located in the centre of the lamp. Thanks to Dim-to-warm technology, dimming changes the light colour of the integrated LED to a warmer tone (from 2,700 Kelvin to 2,200 Kelvin). A memory function saves the last luminous intensity set and automatically selects it the next time the light is switched on. The Epsilon RR 123cm from Holtkötter is available in black, silver matt, anodised brass and platinum. The pendant lamp is also offered with a length of 83 cm or 163 cm.
