Opis

The Bomma Orbital Pendant has the shape of a yoyo, consisting of two outer glasses and a ring-shaped middle part made of stainless steel. These two glasses are made individually from mouth-blown crystal glass. Any small bubbles or irregularities in the glass are a characteristic feature of the traditional, handcrafted production of mouth-blown glass. During the manufacturing process, clear crystal glass is mixed with coloured glass. Each glass is unique, so the hue and intensity of colour can vary.

The Orbital Pendant is always clear on one side, the glass on the other side is offered in the colours polaris white, mercury black, venus pink, pluto green and clear. The ring-shaped middle part of the pendant lamp is available in silver or gold patinated versions. The canopy has the same colour as the middle part. The cables, each with a maximum length of 250 cm, can be shortened if required. On request, the lamp is also available with other cable lengths. The E27 socket of the lamp can be operated with a replaceable Globe LED retrofit.
