Opis

The Betec Palus is a decorative wall lamp with two light sources. The technical lighting structure is excellently supported by the exciting design. This is a wall spotlight that reflects light drawings as a symmetrical pattern on the wall and simultaneously illuminated the floor and ceiling. This wall lamp can be used in offices and public buildings and can also be used as a directional arrow. The Palus is suitable e.g. in cinemas, museums, foyers, private entrances and clinics as a wall brightener, and as a room accent also for bistros and cafés. The Palus is made of aluminum and is 40 cm high. The wall lamp is available in white, red and silver. It can be operated with two GU10 LED bulbs.
