Opis

The Nans are an extensive collection of hand-woven products characterised by a cheerful colour weave that blends easily into the architecture and landscape they are placed in. The shape of the Nans Bag reminds us of a large wicker basket. Due to its wide surface, we decided to cover the upper opening with an aluminium disc, transforming it into auxiliary objects that, in addition to providing light, also allow small objects to be stored. To make it easier to move them, we added two teak handles to the edge of the lid. The Bag allows the light tone to be adjusted at any time by setting the colour temperature of its shade via a manual push button at 2200K, 2400K, 2700K. Designed for outdoor use, the lamps are equipped with IP-44 protection.
