### Opis

Kando, a Japanese term that captures the deep emotion and satisfaction experienced in the presence of something exceptionally valuable, is the essence of our lamps. Designed with a focus on aesthetics and functionality, these lamps are created to generate a warm and comfortable atmosphere. Our Kando lamps emit a warm, inviting light, filtered through a ribbon for indoor use or a nautical cord for outdoor use, materials that make up its shade. It is supported within a lightweight teak wood structure, which also acts as a handle for easy transport. Furthermore, the Kando allows you to adjust the color temperature of the light according to your preferences, with a manual push button offering options of 2200K, 2400K, and 2700K. Available in three sizes and versions for indoors or outdoors, they adapt to a wide variety of needs and spaces.
